Lost pet action plan

Act in the first hours

1. Search the home and property first: closets, under beds, garages, sheds, crawl spaces.
2. Walk the neighborhood calling calmly; bring treats or a noisy toy. Search again at dawn and dusk.
3. Call your microchip registry and report the pet missing; confirm your contact details are current.
4. Call local shelters, animal control and nearby vets. Visit shelters in person every 1-2 days.
5. Post on local lost-pet groups, neighborhood apps and community boards with a clear photo.
6. Put up flyers within a 1-mile radius: busy corners, vets, pet stores and community boards (not on mailboxes, which US postal rules prohibit).
7. Leave an item with your scent and a water bowl outside your door.
8. If you get a call about a sighting, ask for a photo and meet in a public place.
9. Beware of reward scams: never send money before you have your pet.
